

Gastrointestinal Pathology

The Yale Gastrointestinal Pathology Program offers comprehensive diagnostic services for biopsies and resections from the gastrointestinal tract, liver, biliary tree, and pancreas, and specialized expertise in the pathologic diagnosis of inflammatory and neoplastic conditions. Our diagnostic techniques include routine histopathology, immunohistochemistry, in situ hybridization, molecular diagnostics, flow cytometry, and electron microscopy. The Yale Gastrointestinal Pathology Program also plays a critical role in the liver transplant service.

Dhanpat Jain, M.B.B.S., M.D.
Professor of Pathology and Medicine
(Digestive Diseases)
Director, Gastrointestinal Pathology Program

Andrea Barbieri, M.D.
Instructor in Pathology

Joanna Gibson, M.D.
Assistant Professor of Pathology

Liming Hao, M.D.
Associate Professor of Pathology

Kisha A. Mitchell, M.D.
Associate Professor of Pathology
Director, Autopsy Service

Marie E. Robert, M.D.
Professor of Pathology and Medicine
(Digestive Diseases)
Acting Director, Neuropathology

A. Brian West, M.D.
Professor and Vice Chair of Pathology
Director, Anatomical Pathology

Xuchen Zhang, M.D.
Assistant Professor of Pathology
